### CONTROLLED DISCLOSURE

When downloaded for the ECSA Document Management System, this document is uncontrolled and the responsibility rest with the user to ensure that it is in line with the authorized version on the database. If the "original" stamp in red does not appear on each page, this document is uncontrolled.

<b>Document No.:</b> E-20-PN	<b>Revision No.:</b> 32	<b>Effective Date:</b> 13/05/2021	
<b>Subject: Diplomas Accredited as Meeting the Educational Requirement for Registration as a Candidate and Professional Engineering Technician</b>			
<b>Compiler:</b> T Dhlamini	<b>Approving Officer:</b> Ms Carmen Wright	<b>Next Review Date:</b> After the next approval meeting	Page 2 of 16

## 1. Purpose

The graduates of the qualification programmes listed here belonging to that graduating classes of the years shown against each programme have satisfied the educational requirement toward registration as a Candidate Engineering Technician and Professional Engineering Technician with the Engineering Council of South Africa.

## 2. Notes

1. Accreditation is formal recognition awarded to an education or training programme through a quality assurance procedure that it meets criteria laid down for the type of programme.
2. Accreditation criteria are statements of requirements that must be satisfied by a programme in order to receive accreditation.
3. Accreditation visit has three types: Interim visit which refers to a partial accreditation that is awarded until all requirements are met for full accreditation; Final visit refers to a follow-up visit after a partial accreditation to check if outstanding accreditation criteria is met or not and may result to withdrawal of accreditation if the criteria is still no met; and Regular visit refers to the routine visit after full accreditation.
4. Validity dates for accreditation apply to the year in which the student completes the programme, that is, the last year in which the student was registered at the university. Where a programme is being phased out or is discontinued the accreditation period is extended by no more than 24 months.
5. The accredited degree fulfils only the educational requirement toward registration as Candidate Engineering Technologist or Professional Engineering Technologist: further training and experience is required for professional registration.
6. ECSA Council commenced accreditation of technology qualifications in 1991. The year of the next regular evaluation visit (next general review) is shown against programmes that are currently offered.
7. Provisional Accreditation may be granted to a new degree programme, which has been visited when students have completed half the credits for the degree. A regular accreditation visit is required in the year after the first graduates are produced. ECSA recognises graduates between the year of provisional accreditation and the decision of the first regular accreditation.
8. Where providers offer programmes at different sites, the programmes at every site are evaluated

### CONTROLLED DISCLOSURE

separately. In such cases, the site of delivery is shown against each programme.

**Lists for the various universities of technology are found in the Sections shown.**

University of Technology	List
<b>Vaal University of Technology</b> (as from 2004, formerly Vaal Triangle Technikon)	3.1
<b>Tshwane University of Technology</b> (formed by the merger of Technikon Northern Gauteng and Pretoria Technikon in 2004)	3.2
<b>UNISA</b> (as from 2004, formerly Technikon SA)	3.3
<b>University of Johannesburg</b> (formed by the merger of Technikon Witwatersrand and Rand Afrikaans University (RAU) in 2005)	3.4
<b>Central University of Technology, Free State</b> (as from 2004, formerly Free State Technikon, formerly Technikon Orange Free State)	3.5
<b>Mangosuthu University of Technology</b> (as from 2004, formerly Mangosuthu Technikon)	3.6
<b>Durban University of Technology</b> (as from 2005, formerly Durban Institute of Technology. As from 2001, merger of ML Sultan Technikon and Technikon Natal)	3.7
<b>Nelson Mandela Metropolitan University</b> (as from 2004, formerly Port Elizabeth Technikon)	3.8
<b>Cape Peninsula University of Technology</b> (formed by the merger of Cape Technikon and Peninsula Technikon in 2005)	3.9
<b>Walter Sisulu University</b> (formed by the merger of Eastern Cape Technikon and Border Technikon in 2005)	3.10

## 2.1 Dublin Accord Recognition of Accredited Programmes

Engineering programmes listed below have been accredited by ECSA and are recognised as meeting the initial academic requirements for Professional Engineering Technician in South Africa. International recognition of these programmes is provided through the Dublin Accord, which was signed in 2002.

Signatories to the Dublin Accord have undertaken to make every reasonable effort to ensure that the bodies responsible for registering or licensing engineering technicians to practise in its country or territory mutually recognise the substantial academic equivalence of engineering academic programmes accredited by other Accord signatories.

ECSA was a founding signatory to the Dublin Accord and other signatories are under no formal obligation to recognise the graduates of accredited programmes prior to 2002. Individual Accord signatories recognise accredited programmes gained prior to 2002 at their own discretion.

Further details about the Dublin Accord and details of all current signatories with links to all accreditation listing information can be found at: [www.ieagreements.org](http://www.ieagreements.org)

## 3. Qualification programmes accredited as meeting the educational requirements toward registration as a Professional Engineering Technician as a result of an accreditation visit

### 3.1 Vaal University of Technology
